Happy Water Quality Month!

The [health of our rivers](#) is critical for environmental sustainability, preservation of wildlife, and clean water protection! River health is based on water quality monitoring efforts, so we developed a Citizen Water Quality Monitoring Network.

For over a month, volunteers have visited eight sample locations weekly along the Harpeth River, Mill Creek, and Richland Creek collecting water samples that provide essential data needed to develop a real-time water quality alert system.

To learn more about the program and what happens with samples, join us for this month's [Conservation Conversation](#) and follow us on [Instagram](#) for weekly updates and information on the work we are doing to help protect and improve water quality across the state.

A single water sample costs \$150, support the program [HERE](#)

**Conservation Conversations:
What's in Our Water?**

Join Harpeth Conservancy's Director of Watershed Science and Restoration, Dr. Ryan Jackwood, to discuss common bacteria pollutants in our water and how a forecast model can protect human and animal health!

Bring your questions about pathogens, how a forecast model works, and how you can help!

Happening on Zoom, Wednesday, August 25th, 6 PM CST.

Register [HERE](#) to receive the Zoom information!

Are you ready to dine, dance, and bid at [River Swing](#)?

We are 37 days away from River Swing, so **NOW** is the time to purchase your tickets or become a sponsor to celebrate and protect clean water in Tennessee! In addition to attending, you can also donate items and services to the silent auction!

Have questions? Please, email Haylee Hall at hayleehall@harpethriver.org

Want to know more about last month's dining experience?

Don't miss the [StyleBlueprint article](#) on Dinner IN the Creek!
Plus, learn how you can host your creek party!

Floating for a Cause- Thank You Cumberland Kayak!

We had a great time [floating the Cumberland River](#)! MANY thanks to everyone who came out to paddle and our wonderful partner, [Cumberland Kayak](#) for hosting this awesome benefit for our work!

Keep Clean Water on Your Plate!

A portion of each Protecting Rivers and Clean Water License Plate supports clean water in Tennessee. [Learn how to get yours today!](#)

Thank you! Stay in Touch.

Join us on [Facebook](#), [Twitter](#), [Instagram](#), and [YouTube](#) for more frequent updates and interesting news.
